

Stryker CMF Customized Facial Implants **MEDPOR®**

Precise Fit. Proven Material.

Stryker CMF MEDPOR Customized Implants are designed individually for each patient to correct trauma and/or defects in the maxillofacial or craniofacial bone.

MEDPOR is a biocompatible, porous polyethylene material. The interconnecting, omni-directional pore structure may allow for fibrovascular in-growth and integration of the patient's tissue.

Mandible Implants

Midface Implants

Orbital Implants

For ordering instructions, including electronic upload of CT data and surgeon design approval, please contact your local Stryker sales representative.

A surgeon must always rely on his or her own professional clinical judgment when deciding whether to use a particular product when treating a particular patient. Stryker does not dispense medical advice and recommends that surgeons be trained in the use of any particular product before using it in surgery. The information presented is intended to demonstrate the breadth of Stryker product offerings. A surgeon must always refer to the package insert, product label and/or instructions for use before using any Stryker product. Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets. Please contact your Stryker representative if you have questions about the availability of Stryker products in your area.

Stryker Corporation or its divisions or other corporate affiliated entities own, use or have applied for the following trademarks or service marks: MEDPOR, Stryker, and Stryker Orthopaedics. All other trademarks are trademarks of their respective owners or holders.
