

# Facial iD<sup>®</sup>

## Mandible Reconstruction

Individually designed.  
**Personalized care.**

Our latest Facial iD Mandible Reconstruction plate offers enhancements that will give you the ability to control additional customization for the unique anatomy of your patient.

### Branches

Ability to extend the plate in multiple directions

### Flanges

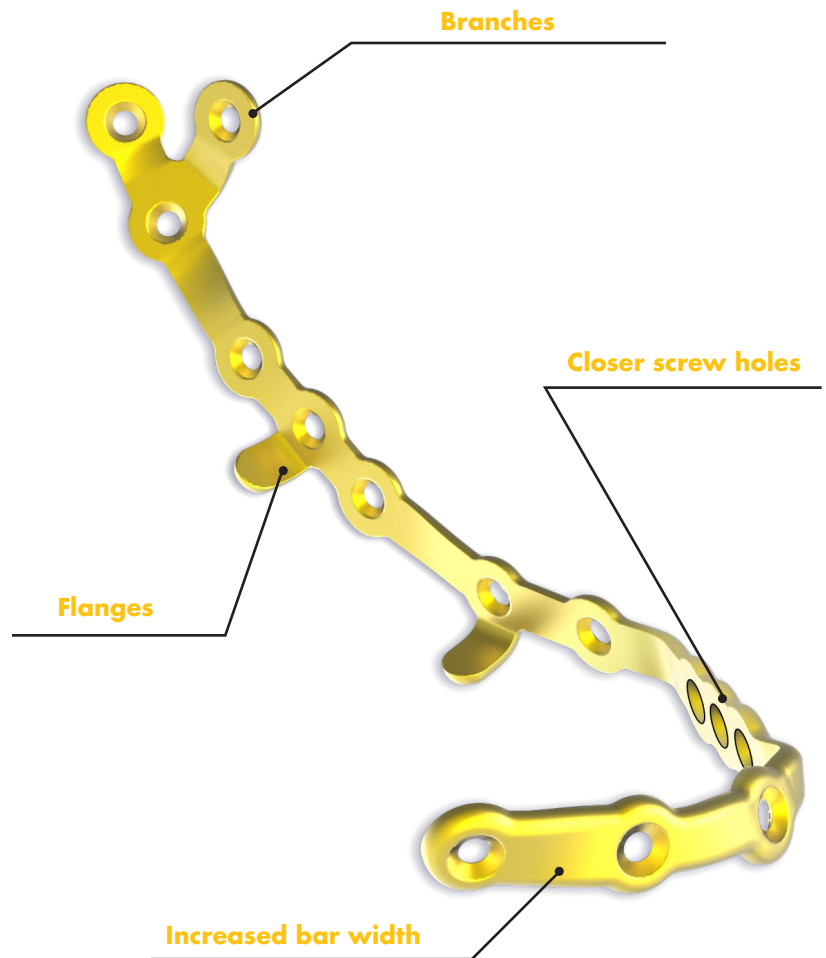

Allows for anatomical positioning on your patient's bony anatomy

### Closer screw holes

With our latest Facial iD mandible reconstruction plate, screw holes can be placed 3mm closer together

### Increased bar width

Width can be increased to 7.5mm for additional design flexibility

This document is intended solely for the use of healthcare professionals. A surgeon must always rely on his or her own professional clinical judgment when deciding whether to use a particular product when treating a particular patient. Stryker does not dispense medical advice and recommends that surgeons be trained in the use of any particular product before using it in surgery. The information presented is intended to demonstrate a Stryker product. A surgeon must always refer to the package insert, product label and/or instructions for use, including the instructions for cleaning and sterilization (if applicable), before using any Stryker product. Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets. Please contact your Stryker representative if you have questions about the availability of Stryker products in your area. Stryker Corporation or its divisions or other corporate affiliated entities own, use or have applied for the following trademarks or service marks: Facial iD, Stryker.
