

Let's make a material difference: new AXS Axial stability screw packaging

We want every aspect of our products to be the best, including our packaging. From streamlining your inventory to minimizing your facility waste, this seemingly small packaging change can create a big difference.

The results are in*:

91% reduction in volume/storage space

80% reduction in paper

89% reduction in plastic

Do more with less

Our AXS Axial stability screw is known for simplified pick up and performance, and now it simplifies packaging as well – available in: 2.0 self-tapping (locking, non-locking), 2.0 self-drilling (locking, non-locking), 2.0 MP (self-drilling, self-tapping), HMMF, MMF.

25 screws in 5 x 5 packaging

25 screws in 1 package

*Compared to 5 x 5/pkg screw packaging¹

Craniomaxillofacial

This document is intended solely for the use of healthcare professionals. A surgeon must always rely on his or her own professional clinical judgment when deciding whether to use a particular product when treating a particular patient. Stryker does not dispense medical advice and recommends that surgeons be trained in the use of any particular product before using it in surgery.

The information presented is intended to demonstrate a Stryker product. A surgeon must always refer to the package insert, product label and/or instructions for use, including the instructions for cleaning and sterilization (if applicable), before using any Stryker product. Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets. Please contact your Stryker representative if you have questions about the availability of Stryker products in your area.
